

# ¿CÓMO CREAR TU APLICACIÓN DE SERVERLESS?

En la consola veremos algo así:

```
Service Information
service: serverless-effortless
stage: dev
region: us-west-2
stack: serverless-effortless-dev
resources: 11
api keys:
  None
endpoints:
  GET - https://hyhfip3sql.execute-api.us-west-2.amazonaws.com/dev/hello
functions:
  hello: serverless-effortless-dev-hello
```

# ¿CÓMO CREAR TU APLICACIÓN DE SERVERLESS?

## handler.py

```
def hello(event, context):  
    body = {  
        "message": "Go Serverless! Your function executed  
successfully!",  
        "input": event,  
    }  
    response = {"statusCode": 200, "body": json.dumps(body)}  
    return response
```
